**Course Title:** Physical Education – Second Grade

**Board Approval Date:** 10/15/12

Credit / Hours: NA

## **Course Description:**

This Course focuses on mastery of the PA academic standards for Physical Education. As student's progress through this course they will participate in more complex games that focus on loco-motor and non-loco-motor movements. They will work on manipulative skills, such as throwing, kicking, hitting, and rolling. They will be able to identify the difference between a physical and social skill and use these skills in a game setting. They will participate in more group and team type activities. Their skill level should be more developed then first grade. The games students play are more complex than first grade.

# **Learning Activities / Modes of Assessment:**

Teacher Observation Skills Tests on Basic Movements	

### **Instructional Resources:**

Various Videos on Fitness and Dance

DVD's, Records, and Cassette Tapes (Bean Bags, Parachute, Dance)

Various Websites on Physical Education (Ex. PECentral)

# Course Pacing Guide

Course: Physical Education – Grade	Two
------------------------------------	-----

Course: Physical Education – Grade Two	
Course Unit (Topic)	Length of Instruction (Days/Periods)
1. Basic Manipulative, Combination, Spacial Awareness Movements	10 days
2. Fitness	10 days
3. Games	20 days
4. Manipulative Unit	8 days
5. Movement	10 days
6. Rhythms	8 days
DAYS TOTAL	58 Days

Curriculum: CCSD CURRICULUM

Course: PE - 02 (10/15/12)

Topic: Basic Manipulative, Combination, Spacial Awareness Movements-2

Subject(s): Physical Education

Days: 10 Grade(s): 2nd

#### Know:

#### 10.4.3.A - Essential

Identify and engage in physical activities that promote physical fitness and health.

#### 10.4.3.B - Essential

Know the positive and negative effects of regular participation in moderate to vigorous physical activities.

#### 10.4.3.D - Compact

Identify likes and dislikes related to participation in physical activities.

#### 10.4.3.E - Essential

Identify reasons why regular participation in physical activities improves motor skills.

Manipulative Movements

Combination Movements

Spacial Awareness

#### Understand:

Techniques for throwing, Kicking, striking, rolling

Skills for locomotor and non-loccomotor movement

Skills in changing levels, directions

Do:

#### 10.4.3.A - Essential

Identify and engage in physical activities that promote physical fitness and health.

#### 10.4.3.B - Essential

Know the positive and negative effects of regular participation in moderate to vigorous physical activities.

#### 10.4.3.D - Compact

Identify likes and dislikes related to participation in physical activities.

Be able to throw, kick, roll, hit

Be able to run, bend, twist

Be able to dodge by changing levles, pathways and directions

Course: PE - 02 (10/15/12)

PENNSYLVANIA

Date: September 12, 2012 ET

Topic: Basic Manipulative, Combination, Spacial Awareness Movements-2

Subject(s): Physical Education

Days: 10 Grade(s): 2nd

Which standards are students learning in this unit?

#### 10.4.3.A - Essential

Identify and engage in physical activities that promote physical fitness and health.

#### 10.4.3.B - Essential

Know the positive and negative effects of regular participation in moderate to vigorous physical activities.

#### 10.4.3.D - Compact

Identify likes and dislikes related to participation in physical activities.

#### 10.4.3.E - Essential

Identify reasons why regular participation in physical activities improves motor skills.

Curriculum: CCSD CURRICULUM

Course: PE - 02 (10/15/12)
Teacher/Team Name: Margo Kile

Topic: Fitness-2

Subject(s): Physical Education

Grade(s): 2nd

Grade(s): 2nd

Know:

#### 10.4.3.A - Essential

Identify and engage in physical activities that promote physical fitness and health.

#### 10.4.3.B - Essential

Know the positive and negative effects of regular participation in moderate to vigorous physical activities.

#### 10.4.3.C - Essential

Know and recognize changes in body responses during moderate to vigorous physical activity.

- heart rate
- · breathing rate

#### 10.4.3.D - Compact

Identify likes and dislikes related to participation in physical activities.

#### 10.4.3.E - Essential

Identify reasons why regular participation in physical activities improves motor skills.

Know what being Physically Fit means.

Know what

FITT=Frequency,Intensity,Time,Type

Know what aerobic and anaerobic means.

Understand:

Identify and participate in specific activities that will improve our fitness levels and recognize the body effects of exercise.

# 10.3.3.D – Essential

Do:

Identify and use safe practices in physical activity settings (e.g., proper equipment, knowledge of rules, sun safety, guidelines of safe play, warm-up, cool-down).

#### 10.4.3.A - Essential

Identify and engage in physical activities that promote physical fitness and health.

#### 10.4.3.B - Essential

Know the positive and negative effects of regular participation in moderate to vigorous physical activities.

#### 10.4.3.C – Essential

Know and recognize changes in body responses during moderate to vigorous physical activity.

- heart rate
- · breathing rate

#### 10.4.3.D - Compact

Identify likes and dislikes related to participation in physical activities.

Demonstrate different exercises and tell which part of the body it is good for.

Explain how exercise affects the body.

Explain what FITT means.

Topic: Games-2

Subject(s): Physical Education

Days: 20

Grade(s): 2nd

Date: September 12, 2012 ET

#### Know:

#### PE 10.4.I - Compact

Determine what affects an individual's physical activity choices, i.e., likes and dislikes

#### PE 10.4.J - Essential

Understand that practice and knowledge of how to correctly do a skill are important in learning motor skills

#### PE 10.4.L - Compact

Understand and identify positive and negative interactions of small group activities

#### PE 10.4.M – Important

Recognize that in games and sports, we must work with other people. How we work with the other people in our group can be positive or negative

#### PE 10.5.A - Essential

Understand that games, dances and gymnastics are physical activities and all physical activities use fundamental motor skills

#### PE 10.5.C - Essential

Understand that many physical activities use combinations of two or more fundamental motor skills/movement concepts

#### Understand:

Recognize and understand that participating in games and activities can provide opportunities to improve our overall physical and social skills.

# Do:

#### PE 10.4.J - Essential

Understand that practice and knowledge of how to correctly do a skill are important in learning motor skills

#### PE 10.4.L - Compact

Understand and identify positive and negative interactions of small group activities

#### PE 10.4.M - Important

Recognize that in games and sports, we must work with other people. How we work with the other people in our group can be positive or negative

#### PE 10.5.A - Essential

Understand that games, dances and gymnastics are physical activities and all physical activities use fundamental motor skills

#### PE 10.5.D - Essential

Know and demonstrate that correctly practicing a skill can help you become a more skillful mover

#### PE 10.5.M - Essential

Demonstrate space and relationship awareness during game play

#### 10.4.3.A - Essential

Identify and engage in physical activities that promote physical fitness and health.

#### 10.3.3.D - Essential

Identify and use safe practices in physical activity settings (e.g., proper equipment, knowledge of rules, sun safety, guidelines of safe play, warm-up, cooldown).

Demonstrate movement and manipulaitve skills in games.

Participate in games that promote physical fitness and health

Show cooperation and sportsmanship while playing games.
